About Trackable Health

Founded in 2020 Trackable Health began as InHomePharmacy LLC focused on smart medication dispensers and has since pivoted-to onboarding data from fitness devices (Oura, Garmin, Whoop) modeled using Gen-AI to produce a consistent readiness score that can be gamified. Multiple AI products can be purchased on the AWS Marketplace.

Core Competencies

- ✓ Gen-AI / AI Modeling
- ✓ GUI / Dashboards
- ✓ Platform Integration
- ✓ Intellectual Property
- ✓ Software Creation
- ✓ White-label Solutions
- ✓ IP Protections

Past Performance & Support

VANTIQ
